Uses, Applications and Major Benefits

Beauty with Integrity

Clean Beauty | Sustainability | Mindful Living | Ethical Sourcing

Supporters of the “Beauty with a Conscience” Movement

No longer a trend, the groundswell demand for healthy, clean beauty and personal care products has permanently created a lasting and overarching “*Beauty with a Conscience*” Movement. Unsafe and toxic ingredients are pressing consumers to demand clean products with naturally derived ingredients that are user and environmentally safe, and ethically and sustainably sourced.

In addition, we live in unstable, modern times, where stress and uncertainty have been etched into our daily lives. Consumers are turning to nature as a result for more ecological solutions to calm the mind, soothe the body and inspire the soul.

Also developing, is the consumer effort to be “mindful” of their total health and wellbeing, and that of the planet. This “Mindful Living” is affecting global cultures as well, as consumers are uniting to support initiatives that sustain socio-economically depressed populations all around the world.

All of these factors are driving strong, alternative demand for clean, sustainable, mindful and ethically sourced products that extol the values of the “*Beauty with a Conscience*” Movement, and we, at Integrity have made a solid commitment to it. We are proud to offer innovative solutions to create Clean Beauty opportunities for your beauty brand. Safety and optimum beauty are achievable.

We distribute non-irritating, non-toxic, safe ingredients and exclude from our portfolio “free-from” and ill-perceived ingredients. Sourcing environmentally safe, pesticide-free, naturally derived and organic materials is one of our highest priorities. Our portfolio includes products that are highly efficacious, and solution driven that are supported by strong clinical substantiation. Also included are our unique formulations and collection prototypes that have been designed to be beautifully sensorial while delivering powerful results.

Regarding our business partnerships, we cultivate truthful, transparent and empowering action and communication and insist on ethically supplied, and responsibly sourced materials. We value green chemistry, clean production and seek products that feature a reduced carbon footprint and sustainable traceability from earth-to-product. Lastly, we are driven to actively expand our quest to sustain various socio-economically suppressed cultures as an overarching business initiative. We invite you to *Join Us on Our Journey in the “Beauty with a Conscience” Movement.*

IntegriBUTTER Almond (Soft)

INCI Name: Prunus Amygdalus Dulcis (Sweet Almond) Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Almond (Soft) is derived from sweet almonds (*Prunus Amygdalus Dulcis*), specifically from the Mediterranean area, and is obtained by the cold pressing of selected fruits followed by a full refining process.

Attributes:

The natural oil contains essential fatty acids, but also contains unsaponifiables. In cosmetic formulations, the behavior of IntegriBUTTER Almond (Soft) is somewhat similar to that of shea butter. A very soft butter with great spreadability, making it ideal for massage butters. It adds moisturizing attributes to creams, lotions and bar soaps.

Applications:

May be used in cosmetics, toiletries, soaps, massage oils and balms, as well as hair care and sun care preparations.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Aloe (Soft)

INCI Name: Hydrogenated Vegetable Oil (and) Aloe Barbadensis Leaf Extract

IntegriBUTTER Aloe (Soft) is a white to off white butter obtained from an extraction of decolorized (doesn't contain Anthraquinones measured as Aloin) Aloe Vera using hydrogenated vegetable oil to produce a soft, solid butter. Our Aloe Butter contains all of the amazing benefits of aloe that can be used as an emollient, skin protectant or a moisturizing agent to assist with moisturization after sun exposure or other harsh elements.

Attributes:

IntegriBUTTER Aloe (Soft) has natural anti-inflammatory properties and melts on contact with the skin to provide moisturizing properties and rapid hydration to dry skin that could be caused by eczema, psoriasis, rosacea, sunburn and windburn.

Applications:

May be used in cosmetics, toiletries, soaps, massage oils and balms, as well as hair care and sun care preparations.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Apple

INCI Name: Butyrospermum Parkii (Shea) Butter (and) Pyrus Malus (Apple) Seed Oil

IntegriBUTTER Apple uses our cold pressed Apple Seed Oil that is wild-harvested, maintaining its natural apple odor combined with shea butter that can be used in cosmetic applications for a rich moisturizer.

Attributes:

IntegriBUTTER Apple helps to soften, protect, hydrate and nourish your skin and hair and it helps to promote skin renewal and to increase collagen synthesis. It is rich in essential fatty acids which helps to restore normal skin barrier function, calm inflammation and condition your skin and hair. It contains vitamins and minerals, including phosphorus, potassium, magnesium, calcium and iron. It also contains a high amount of natural sulfur that has been used to treat acne, psoriasis and other skin conditions.

Applications:

Skin and hair applications, acne creams and lotions, moisturizers, body creams and soap.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Apricot (Soft)

INCI Name: Prunus Armeniaca (Apricot) Kernel Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Apricot (Soft) is derived directly from Apricot Kernel Oil. It is a 100% vegetable-originated raw material with no preservatives. The butter consists of 75 to 80% Apricot Kernel Oil and 20 to 25% of hydrogenated vegetable oil.

Attributes:

IntegriBUTTER Apricot (Soft) provides the improved stability of butter while retaining the interesting skin care properties of Apricot Kernel Oil. Apricot Kernel Oil is rich in essential fatty acids. Apricot Kernel Oil has been used for centuries as a skin softening agent. This oil has high levels of oleic acid (58 - 74%) and linoleic acid (20 - 34%) and is similar in weight to human sebum. Some of these essential fatty acids are involved in rebuilding the epidermis and regulating hydration.

Applications:

Emollient/moisturizer - enhances spreadability of finished products, penetrates easily into the epidermis, restores flexibility of the skin, helps to stabilize emulsions and to adjust viscosity. Apricot Kernel Oil has moisturizing, nourishing and revitalizing properties.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Avocado (Soft)

INCI Name: Persea Gratissima (Avocado) Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Avocado (Soft) is produced from the flesh of the avocado fruit through a unique hydrogenated process which yields a soft, greenish butter.

Attributes:

This is a very soft and rich butter which has some natural sunscreen properties. It can be used in soap and skin care formulations at 2 - 20%. In lotion bars, a smaller amount should be used, as this butter can be a little heavy and greasy.

Applications:

Ideal for balms, creams, haircare and soap, IntegriBUTTER Avocado (Soft) has little odor and is very creamy. It makes an excellent body butter. It may be used in all types of soap and toiletries to improve moisturization and soften rough, dry skin.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Cocoa

INCI Name: Theobroma Cacao (Cocoa) Seed Butter

IntegriBUTTER Cocoa is obtained from the fruit of the Cacao tree (*Theobroma Cacao*), which grows in tropical regions throughout the world. The butter is extracted from the seed kernels and is further refined to yield a tan-colored butter with a pleasant, chocolate-like odor. A relatively hard butter with steep melting curve, it is ideal for body care products. IntegriBUTTER Cocoa is the solid fat expressed from the roasted seed of the cocoa beans.

Attributes:

It is highly protective and acts as a water repellent. It contains about 5 IU of Vitamin E per ounce. IntegriBUTTER Cocoa contains natural antioxidants, provides a barrier on the skin to help retain and restore moisture and improve skin elasticity.

Applications:

It may be used in a variety of cosmetic, toiletry and pharmaceutical applications to reduce cutaneous dryness and improve skin flexibility.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Coffee (Soft)

INCI Name: Coffea Arabica (Coffee) Seed Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Coffee (Soft) is obtained from our coffee oil combined with our hydrogenated vegetable oil to make a soft butter that is easy to work with in skin and hair care formulations.

Attributes:

IntegriBUTTER Coffee (Soft) is rich in natural antioxidants and has high levels of lecithin and Vitamin E that will soften and hydrate your skin. It also has an amazing coffee aroma that will refresh your skin.

Applications:

Ideal for balms, creams, haircare and soap, IntegriBUTTER Coffee (Soft) has an amazing aroma that is sure to wake up your skin. It is a creamy butter making it an excellent choice for body butter. It may be used in all types of soap and toiletries to improve moisturization and soften rough, dry skin.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Cupuaçu

INCI Name: Theobroma Grandiflorum Seed Butter

IntegriBUTTER Cupuaçu has been obtained from the fruit seed of the Cupuaçu tree (*Theobroma Grandiflorum*). It is found growing wild in the eastern subregion of the Brazilian Amazonia. The fruit of Cupuaçu is used to produce juices and sorbets in its native South America.

Attributes:

The seeds contain approximately 48% of a sweet-smelling butter, which is stable and highly suitable for use in cosmetics and toiletries.

Applications:

IntegriBUTTER Cupuaçu has a high capacity for water absorption and is therefore an excellent emollient for cosmetic formulations. It prevents drying of the skin and development of wrinkles, reduces degeneration of skin cells, and restores flexibility, moisture retention and elasticity to the skin.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Grapeseed (Soft)

INCI Name: Vitis Vinifera (Grapeseed) Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Grapeseed (Soft) is made through the hydrogenation process, using 100% natural and pure grapeseed oil. This butter is as rich in vitamins and minerals as the oil.

Attributes:

IntegriBUTTER Grapeseed (Soft) has regenerative and restructuring qualities, which allow a better control of skin moisturization. It has excellent spreadability on the skin.

Applications:

It is idea as a massage butter or a body balm. It can also be added to soap, creams, lotions, lip balms, body butters and hair pomades.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Hemp (Soft)

INCI Name: Cannabis Sativa (Hemp) Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Hemp (Soft) is a mixture of the natural waxes found in Hemp Seed Oil. It is produced using the fatty fractions and unsaponifiables (natural waxes/paraffins) which are collected during the refining process, then blended with hydrogenated vegetable oil to produce a butter-like material suitable for use in cosmetics and toiletries.

Attributes:

Hemp Seed Oil is valued for use in cosmetics and toiletries due to its high content of essential fatty acids. It is smooth and, when applied, IntegriBUTTER Hemp (Soft) exhibits a relatively dry feel. Yet, it provides excellent lubricity without being greasy.

Applications:

It can be used in lip balms, hand and foot creams, lotions, soaps and body butters.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Macadamia (Soft)

INCI Name: Macadamia Ternifolia (Macadamia) Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Macadamia (Soft) contains natural waxes that are removed during cold-pressing and is combined with hydrogenated macadamia nut oil and blended with hydrogenated macadamia seed oil. During the pressing, the natural oil contains essential fatty acids, but also contains unsaponifiables as natural waxes/paraffins, which are collected during the refining and deodorization process and are blended with hydrogenated macadamia seed oil to render a butter-like consistency suitable for personal care products.

Attributes:

IntegriBUTTER Macadamia (Soft) offers an exceptionally good emolliency and lubricity, while at the same time exhibiting good dermal penetration.

Applications:

IntegriBUTTER Macadamia (Soft) is great for emollient products, such as creams and lotions, as well as balms, soaps and hair conditioners.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Magnut

INCI Name: Theobroma Grandiflorum Seed Butter (and) Butyrospermum Parkii (Shea) Butter (and) Lecythis Minor Seed Oil

IntegriBUTTER Magnut is made using Magnut Sense Oil, which is naturally sourced from the nuts of the Lecythis Minor, locally known as the Monkey Pot tree. These nuts have been ancestrally utilized for their protective properties, vitamins, and other trace elements. Under a very strict process of cold pressing, 100% natural virgin oil is extracted. An excellent choice for moisturizing and soothing skin.

Attributes:

IntegriBUTTER Magnut contains excellent properties, antioxidants and humectants due to its high content of unsaturated fatty acids and vitamin E. Its protective and moisturization properties are attributed to the presence of omega 3, 6 & 9 fatty acids. It has been found to help reduce expression lines and other superficial facial wrinkles when used at 100% pure application. Additionally, its content of Vitamin E and unsaturated fatty acids, make it an excellent antioxidant, with multiple cosmetic properties.

Applications:

Our butter can be used in a number of skin and hair care applications to include creams, lotions, massage butters, massage balms and bar soaps.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Mango

INCI Name: *Mangifera Indica* Seed Butter

IntegriBUTTER Mango is obtained from the seed kernels of the mango fruit, grown in the subtropics of India and other parts of the globe. It has a high content of stearic acid, which makes it similar to cocoa butter in terms of properties.

Attributes:

IntegriBUTTER Mango exhibits excellent moisturization for lotions and good lubricity on the skin. It has good emolliency and offers a protective effect against the sun. It is said to prevent drying of the skin and formation of wrinkles. It reduces degeneration of skin cells and restores flexibility. It also counters the drying effects of bar soaps and cleansers.

Applications:

IntegriBUTTER Mango is suitable for soaps, cosmetics and toiletries. It melts at skin temperature, making it ideal for sticks, balms and lotions.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Mango Shea (Soft)

INCI Name: Mangifera Indica (Mango) Seed Butter (and) Butyrospermum Parkii (Shea) Oil

IntegriBUTTER Mango Shea (Soft) has been specially designed by our team combining all the nutrients and benefits of mango along with excellent moisturizing properties of shea.

Attributes:

IntegriBUTTER Mango Shea (Soft) provides moisturizing properties using all of the benefits of mango along with shea butter to help moisturize your skin due to its concentration of natural vitamins and fatty acids. It can serve as an anti-inflammatory due to its cinnamic acid. It also counters the drying effects of bar soaps and cleansers.

Applications:

IntegriBUTTER Mango Shea (Soft) is suitable for soaps, cosmetics and toiletries. It melts at skin temperature, making it ideal for sticks, balms and lotions.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Monoi

INCI Name: Cocos Nucifera (Coconut) Oil (and) Gardenia Taitensis Flower Extract (and) Fragrance

IntegriBUTTER Monoi is a semi-solid butter used on the skin as a conditioning agent made from Gardenia Taitensis Flower Extract and Coconut Oil. It provides excellent spreadability on the skin and is used for moisturizing in skin and hair care products.

Attributes:

IntegriBUTTER Monoi is a skin conditioning agent that slows the loss of water from the skin by forming a barrier on the skin's surface. It can be used in a number of skin and hair care applications to add moisturizing attributes. It has a nice tropical aroma that comes through in your finished product.

Applications:

It can be used in body and lip balm applications as well as hair, skin and sun care applications in addition to soaps.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Murumuru

INCI Name: Astrocaryum Murumuru Seed Butter

IntegriBUTTER Murumuru is harvested from the seeds of the Murumuru trees in the Brazilian Amazon. It is rich in oleic acid which stabilizes it from oxidation, as well as lauric and myristic acids. Murumuru Butter has long been used to provide nutrition and hydration to skin and hair.

Attributes:

Murumuru butter is highly emollient and provides excellent moisturizing attributes as its loaded with vitamins. It has a high content of oleic acid and is rich in fatty acids, vitamin A, vitamin C and omega 3, 6 and 9.

Applications:

IntegriBUTTER Murumuru can be used in skin and hair care products to keep hair shiny while maintaining its strength due to its richness in vitamins and minerals and to nourish your skin.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Olive (Soft)

INCI Name: Olea Europea (Olive) Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Olive (Soft) is derived from olive oil by cold-pressing of fruits followed by a full refining process. The natural oil contains essential fatty acids but also contains unsaponifiables as natural waxes/paraffins which are collected during the refining and deodorization process and from the squalane production process. In cosmetic preparation, the feel and behavior of IntegriBUTTER Olive (Soft) is very similar to that of shea butter, with slightly higher melting characteristics.

Attributes:

IntegriBUTTER Olive (Soft) exhibits excellent spreadability and moisturizing properties.

Applications:

IntegriBUTTER Olive (Soft) exhibits excellent spreadability on the skin, making it ideal as a massage butter or carrier for treatment products. It adds moisturizing attributes to creams, lotions and bar soaps. It can be used in cosmetics, toiletries, soaps, massage oils and balms, as well as hair care and sun care preparations.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Olive Shea (Soft)

INCI Name: Butyrospermum Parkii (Shea) Butter (and) Olea Europaea (Olive) Fruit Oil

IntegriBUTTER Olive Shea (Soft) is another Shea collection by Integrity Ingredients that has been developed in our lab to give you the moisturizing and anti-inflammatory properties of both shea butter and olive oil. Olive oil contains vitamins and minerals to nourish your skin including Vitamin E which has been known for antioxidant and anti-aging properties.

Attributes:

Because shea butter melts at body temperature and acts as a refatting agent, it has become a staple in traditional African medicine as a moisturizer, skin protectant, and conditioner for skin, lips and hair. Its triterpene content also gives it anti-inflammatory properties.

Applications:

IntegriBUTTER Olive Shea (Soft) is suitable for soaps, cosmetics and toiletries. It melts at skin temperature, making it ideal for sticks, balms and lotions.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%

IntegriBUTTER Palm

INCI Name: *Elaeis Guineensis* (Palm) Butter

IntegriBUTTER Palm is an off white semi solid natural butter derived from a fraction of palm fat that contains a high content of tocopherols to provide essential nutrients for the skin and hair.

Attributes:

IntegriBUTTER Palm can help aid with free radical scavenging and moisturization after sun exposure and other harsh elements. Along with a high content of inherent tocopherols, there is a large amount of tocotrienols found in palm butter that are more potent therapeutically than tocopherols.

Applications:

It can be used in creams, lotions, body and lip balms, hair conditioners, bar soaps and sun care applications.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Papaya Mango

INCI Name: Carica Papaya Seed Oil (and) Mangifera Indica (Mango) Seed Butter

IntegriBUTTER Papaya Mango is a soft solid butter containing our mango butter obtained from the seeds kernels of the mango fruit. It has a high content of stearic acid making it ideal for skin and hair care applications. Papaya contains a rich source of Vitamin A, C & E along with other nutrients that are beneficial to the skin and hair.

Attributes:

IntegriBUTTER Papaya Mango exhibits excellent moisturization for lotions and good lubricity on the skin. It has good emolliency and offers a protective effect against the sun. It is said to prevent drying of the skin and formation of wrinkles. It reduces degeneration of skin cells and restores flexibility. It also counters the drying effects of bar soaps and cleansers.

Applications:

It is suitable for soaps, creams, skin and hair care applications. It melts at skin temperature making it ideal for sticks, balms and lotions.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
Body and Lip Balms	3 - 100%
Sun Care	1 - 5%

IntegriBUTTER Pistachio (Soft)

INCI Name: Pistacia Vera Seed Oil (and) Hydrogenated Vegetable Oil

IntegriBUTTER Pistachio (Soft) is an off white to yellowish semi-solid butter that contains essential nutrients like vitamins, minerals, antioxidants and essential fatty acids like Omega 3 and 6 that are ideal for skin and hair care applications.

Attributes:

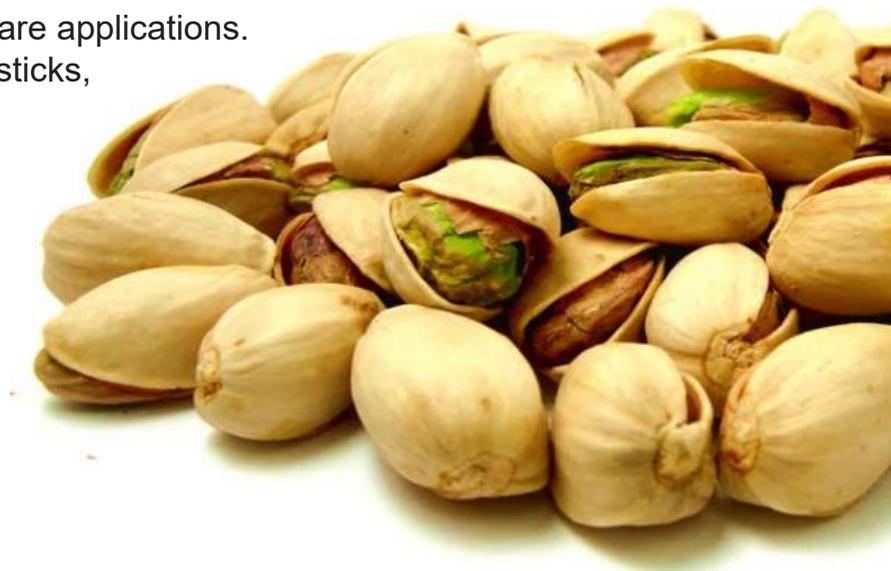

IntegriBUTTER Pistachio (Soft) contains Vitamin E that has been known to fight free radicals making it a nice addition to skin applications to help control fine lines, wrinkles, dark spots and other signs of premature aging as well as keeping your skin soft and hydrated. Pistachio butter also works well in hair care products for known benefits such as to help with strengthening and moisturization as it contains essential fatty acids like Omega 3, 6 and alpha linolenic acid all for promoting healthy hair.

Applications:

It is suitable for soaps, creams, skin and hair care applications. It melts at skin temperature making it ideal for sticks, balms and lotions.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%

Sun Care	1 - 5%

IntegriBUTTER Plum

INCI Name: Butyrospermum Parkii (Shea) Butter (and) Prunus Domestica Seed Oil

IntegriBUTTER Plum contains a high linoleic acid content that is also rich in anti-oxidant tocopherols making it ideal for skin and hair care applications.

Attributes:

IntegriBUTTER Plum contains Vitamin C, Vitamin E, linoleic acid, and antioxidants to help fight signs of aging such as loss of elasticity and wrinkles and it can help with hair follicles in hair care products. It also contains high amounts of anti-inflammatory properties that has been known to help reduce inflammation. This also promotes the elasticity of the skin and helps to control acne.

Applications:

Our butter can be used in a number of skin and hair care applications to include creams, lotions, massage butters, massage balms and bar soaps.

Suggested Use Levels:

Lotions and Creams	2 - 20%
Bar Soaps	3 - 15%
Hair Conditioners	1 - 6%
