

# RHEOSTYL™ 100

BY ARKEMA

INCI: Acrylates copolymer

## Versatility all along the pH range

### Visual aesthetics

High transparency pH > 6.5  
Enhanced pearlescence

### Viscosity & smooth flow

### Powerful Suspension

### Versatile

Broad compatibility  
Surfactants & Soap

### Broad pH range

3 to 12

### Easy process

Liquid polymer  
Cold process

INCI names globally approved

# Versatility all along the pH range ...

## VISUAL AESTHETICS

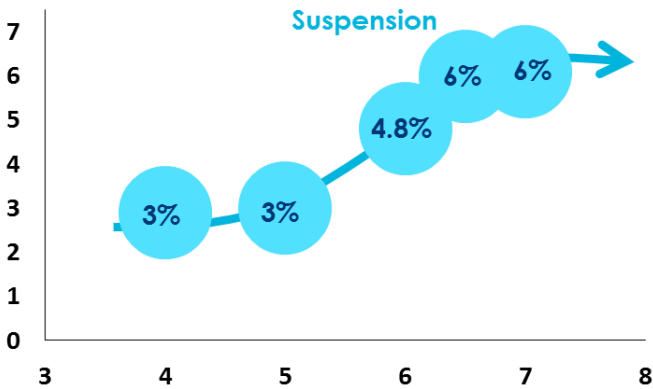

**NEUTRAL pH:** Formulate Crystal Clear products

**LOW pH:** Boost the pearlescence visual of your products

## POWERFUL SUSPENSION

Minimum dosage to suspend

**SUSPENSION:** All along the pH range from 3 to 12

**POWERFUL:** Start to suspend from 3% of polymer as is

**VERSATILE:** Suspend with sulphate-free and sulphated surfactants as well as with soap
